Abstract

Peter Hayes
OIV

Within the context of the OIV's Strategic Plan 2005-2008, the actions directed to "Terroir" and related areas of Zonage and Mapping, Climate Change and Management and Innovation in Viticultural Techniques will be outlined.

A number of work objectives will be illustrated by noting the current OIV meeting presentations and researchers. In conclusion, challenges to regulation, practice and promotion as induced by a dynamic biophysical and technical environment will be addressed.
